

Mt. Calvary Baptist Church, Lanham, Maryland

Beauty by Design

The new dome sanctuary at Mt. Calvary Baptist Church is a culmination of a tremendous amount of work between UCS, Frederick Ward and Associates, and Harbor View Contractors. Their 120' dome was placed on a raised basement, that provided additional square footage underneath the sanctuary. Their sanctuary was designed with main floor and balcony seating for about 1200 people. The congregation plans on having many years of good use for their new sanctuary.
