Summer 2002

East Coast Swing

During the past few months, UCS's crew has been busy traveling the Eastern United States, assembling structures in Maryland and Pennsylvania. While there, we built friendships with the congregations and building professionals.

Baptist in Lanham, MD*

*Below: Shiloh Baptist Church
Easton, Pennsylvania*

On May 6, our crew left to begin assembling a 70' dome for Corinth Baptist Church in Capitol Heights, Maryland. On this project, we worked with the architectural firm of Frederick Ward & Associates, from Bel Air, Maryland, and the general contracting firm of Warder & Associates, from Clinton, Maryland. Delays had postponed the project from its original January date, but we were pleased to have the opportunity to assemble the new worship facility for Pastor Dickens and his congregation. Likewise, Pastor Dickens and his congregation have been extremely thankful for the tremendous help they have received from Warder & Associates. They have gone the extra mile to make this project a reality.

While our crew was in Capitol Heights, UCS representative, Shawn Barrett, visited the job-site. While there, she and Carol Richardson vis-

ited Mt. Calvary Baptist Church as the two projects are only 10 minutes from each other. Carol Richardson is with Tabernacle Builders of Villa Rica, Georgia. She is a professional photographer and was able to get some great shots of the Lanham church (they can be accessed from our website). Mt. Calvary's 120' dome was assembled in March of 2000. Their design included a 20' sidewall in order to accommodate their large balcony. With the balcony, the Auditorium can seat 1,200 people. The two story, 42,000 square foot complex finished for roughly \$5.2 million.

On Monday, June 24, our crew was back on the road to assemble a 120' dome for Shiloh Baptist Church, in Easton, Pennsylvania. Cedar Design, Z Architects, and C.C., Inc., Construction Services are the design and general contracting partners. We want to thank Leo McCarthy, Chuck Werkheiser, Tom Smolick, and the staff of C.C., Inc., for going above and beyond when we needed assistance on-site. We are looking forward to a long working relationship with our new friends and partners.

Recent Celebrations

*Above: Brookhaven Wesleyan Church
Marion, Indiana.*

UCS's clients are always celebrating something exciting. The following churches are no exception.

On May 18, Brookhaven Wesleyan Church dedicated its 110' geodesic dome. Our crew assembled the building in July, 2001. Our friend, Robert Arrendale, of AET, Inc., was the design/build professional for the project. This structure has an 18' sidewall, cupola, one gable, and a two story wrap. The first floor has seating for 450, choir seating for 70, and balcony seating for 245. The cost of this 30,000 square foot complex was \$1.9 million which includes the sound system and pews. This is our sixth project with Robert and he is a delightful, faithfilled fella to work with.

Our crew assembled Bethel

Visit a Job-Site

If you're interested in building, and would like to see our process first-hand, we would like to invite you to visit one of our job-sites while a structure is under construction. If you happen to see that we will be in your area, please call our office and ask for more information. In some cases, we have members of our staff on-site to guide you through the assembly process.

Upcoming Projects

Check our website for dates:

Lexington, Kentucky
Seventh Day Adventist Church
81'x52' rectangle

Flint, Michigan
Morning Star Miss. Baptist Church
110' octagon

Whitesboro, New Jersey
Christ Gospel Love Center
110' geodesic dome

In our Next Issue...

As always, our next newsletter will contain the latest information from some of our projects. Stay tuned for information on the following:

Assembly pictures of Lexington Seventh Day Adventist Church in Lexington, Kentucky.

Photos of Morning Star Missionary Baptist Church in Flint, Michigan.

Tracking of our new I-joint system.

Dedication photographs from Sacred Heart Catholic Church in Birch Run, Michigan.

Coming Dedications

Sacred Heart Catholic Church of Birch Run, Michigan, is looking forward to celebrating the dedication of it's new 96' octagon on August 3. Our crew assembled the structure in October, 2001. We would like to wish Father Carlson and his parishioners the best as they celebrate this very special occasion.

Lutheran's 60' square in December, 2001, and they dedicated the building on May 19, 2002. This is another first class project with our design/build colleagues from Krumroy Construction out of Akron, Ohio.

Morning Star Missionary Baptist wasted no time in starting site preparations after their May 19th ground breaking festivities. This project will feature our new I-joint roof deck. We are working with our close friend, Bill Berry, of the architectural firm Berry, Case, & Associates on the design details. Our intern-architect, Dave McLane assisted with the process from print to project. The general contracting firm of Will H. Hall & Son, Inc., are busy preparing the foundation for our July 22, arrival.
